

# IN101: BICSI Installer 1 Training

---

## Course Length

40 Hours

## Course Language

English

## Course Pricing

- \$1,495.00 per person
- \$1,345.50 per person for groups of 4+ (10% discount)

Get your foot in the door and a head start on your competition with BICSI's comprehensive orientation to the information and communications technology (ICT) community. IN101 is an intensive 5-day, 40-hour course designed to provide entry level ICT cabling installers with the background, knowledge and basic skills needed to function effectively on the job.

## Course Highlights:

- Industry orientation
- Codes and standards & industry best practices
- Safety
- Professionalism
- Structured premises cabling systems
- Media
- Job site skills

## Who Should Attend

Anyone wishing to pursue a career in ICT cabling distribution. Installer 1 training is for those with little or no cabling installation experience.

## Knowledge and Skills

Must be able to distinguish between different colors and possess manual dexterity to complete fine motor tasks.

## Preparation

Little or no experience is needed to sit for this class. However, BICSI strongly recommends reading the *ITSIMM* before coming to class and/or taking the exam.

## Course Materials

Students must bring a print version of the *Information Technology Systems Installation Methods Manual (ITSIMM)* to class (binder version, not downloadable), along with any errata sheets. The manual is not included in the course fee. Personal or prescription safety glasses are also recommended.
